BY INNOVATION IN BUSINESS

## Discovering AI

# DISCOVERING AI

Discover the combined power of ChatGPT with Midjourney or Suno during a collaborative and creative adventure!

## In group

From 10 to 300 participants in teams of 2 or 3 people

## Equipment

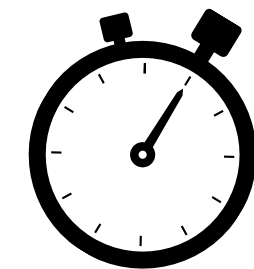

Computer (with webcam and microphone for remote activity)

## The aim

Familiarise yourself with Artificial Intelligence by creating a comic strip or a song/jingle.

## Duration

From 1.5 to 2 hours

# The great comic adventure by Midjourney

Immerse yourself in a unique and captivating team-building experience, specially designed for companies wishing to combine creativity, technology and team spirit. Our innovative activity invites participants to work together to bring to life an exceptional comic strip, drawing on the combined powers of Midjourney and ChatGPT.

In this collaborative creative workshop, each team is guided through the stages of designing a comic strip, from initial brainstorming to final production. Participants are invited to choose a free theme or work together to define a set theme, then use Midjourney to create stunning visuals and ChatGPT to develop a compelling narrative, fine-tune dialogue and integrate a recurring character.

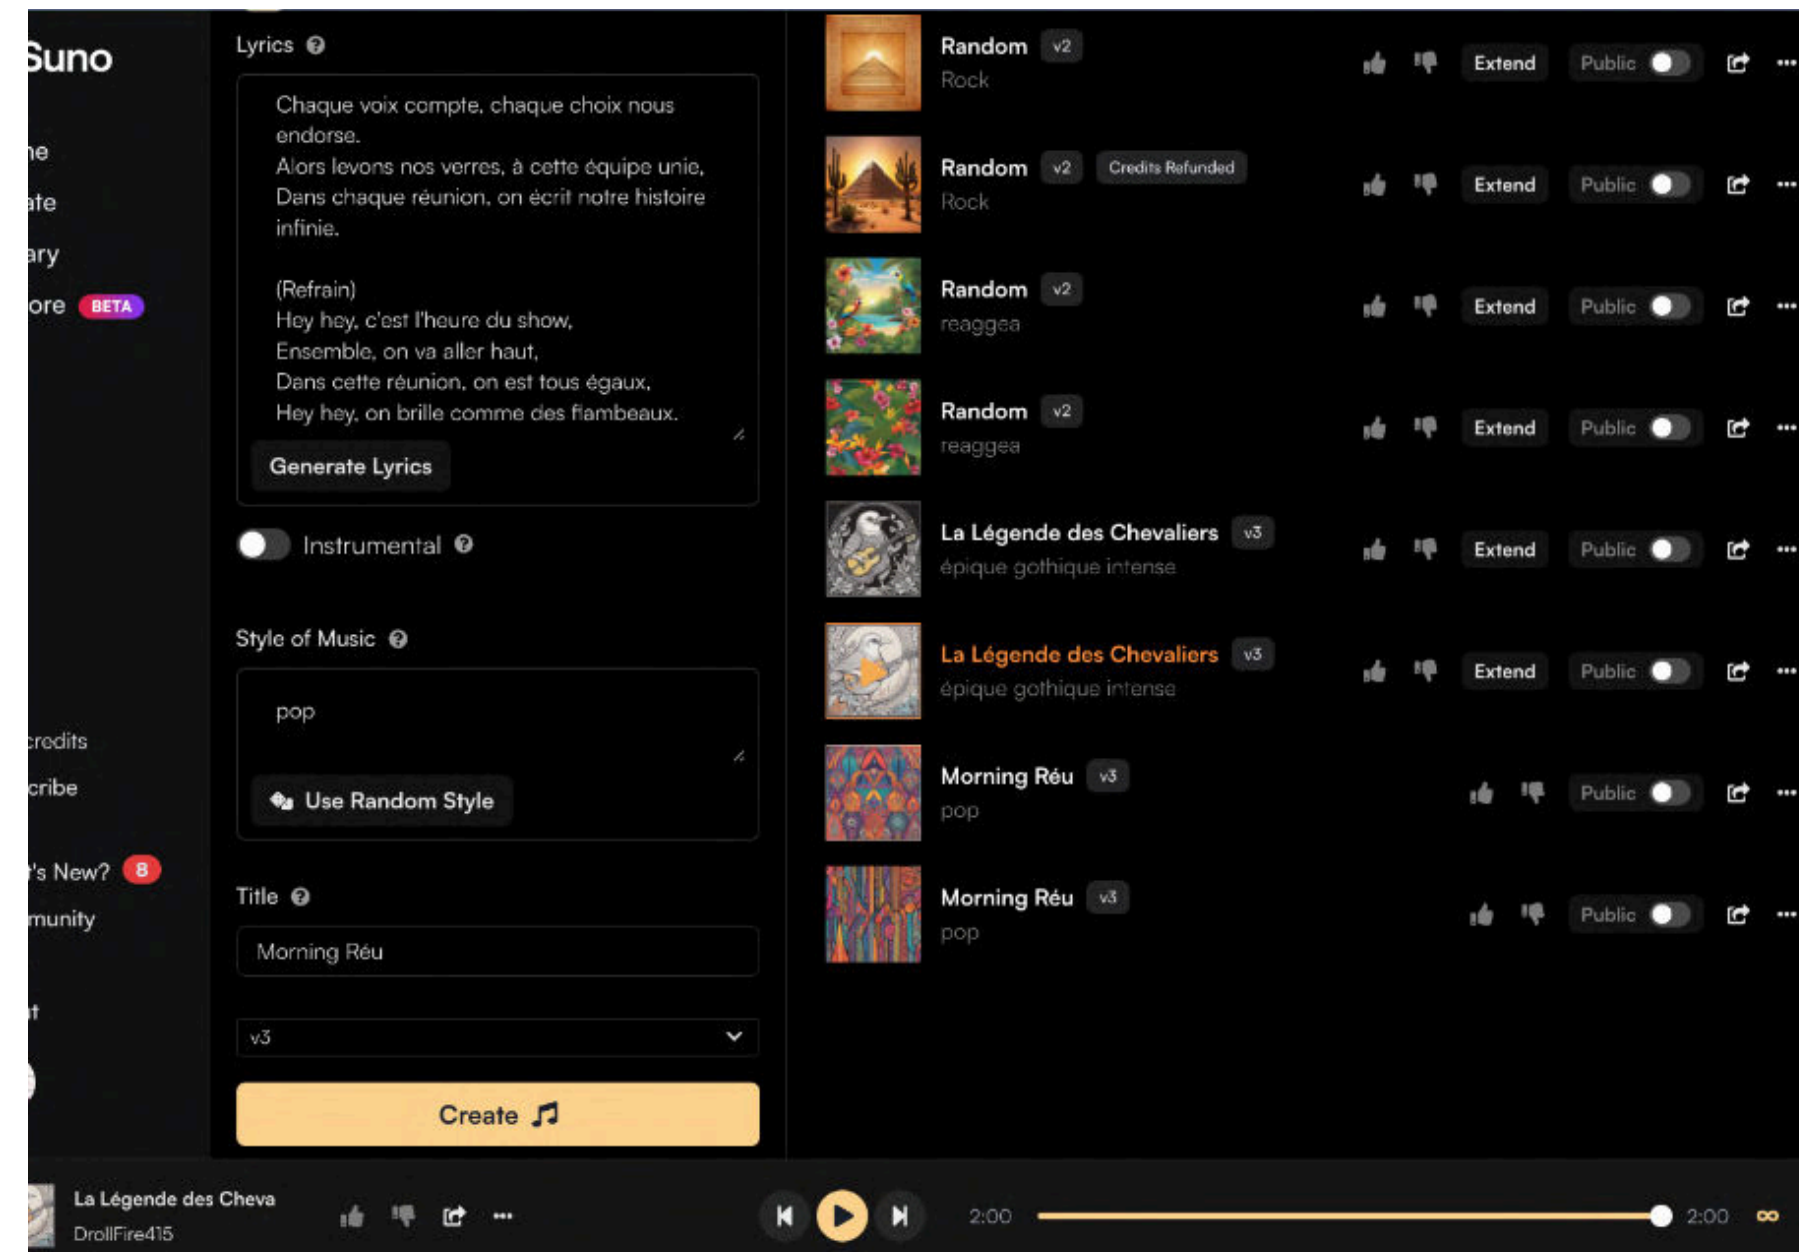

Collaboration and communication within the teams will be key to navigating the creative process and fusing the talents of each participant into a memorable collective work.

# Creative harmony: Suno's melody

Discover "Creative Harmony", a revolutionary team-building experience that combines the strengths of artificial intelligence with the power of music to create a unique anthem for your company or a memorable jingle for your team meetings. Thanks to the collaboration between ChatGPT for the lyrics and Suno for the musical composition, your team is invited to express the spirit of your company through music, creating a reusable and iconic piece.

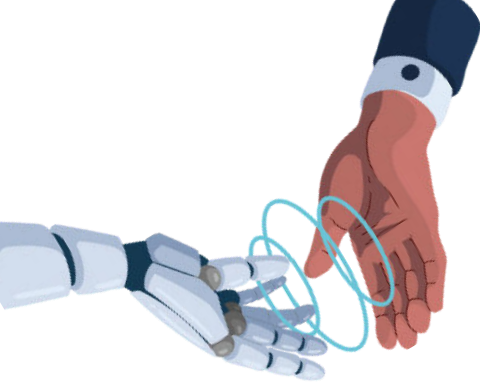

In this collective creation session, participants are guided through a creative process to compose the lyrics and music for a song or jingle that captures the essence of their company. Whether you want to reinforce your brand identity, motivate the troops or simply add a touch of fun to your meetings, "Harmonie Créative" will bring your staff together around an artistic and unifying project.

Example of what can be achieved:

# Discover AI in 3 steps

## Briefing - 15/30mn

- Welcome by Teams Connect at the location of your choice.
- Divide into teams of 2 or 3 people.
- Presentation of the concept of the activity.
- Explanation of how the AI used works.

## The activity - 60 min

- Brainstorm and write the script and dialogue for the comic strip or the lyrics for the song with the help of ChatGPT.
- Use Midjourney to create the visuals for the comic or Suno for the musical composition.
- The teams present their work to the other participants, sharing their vision and creativity.

## Débriefing - 15mn

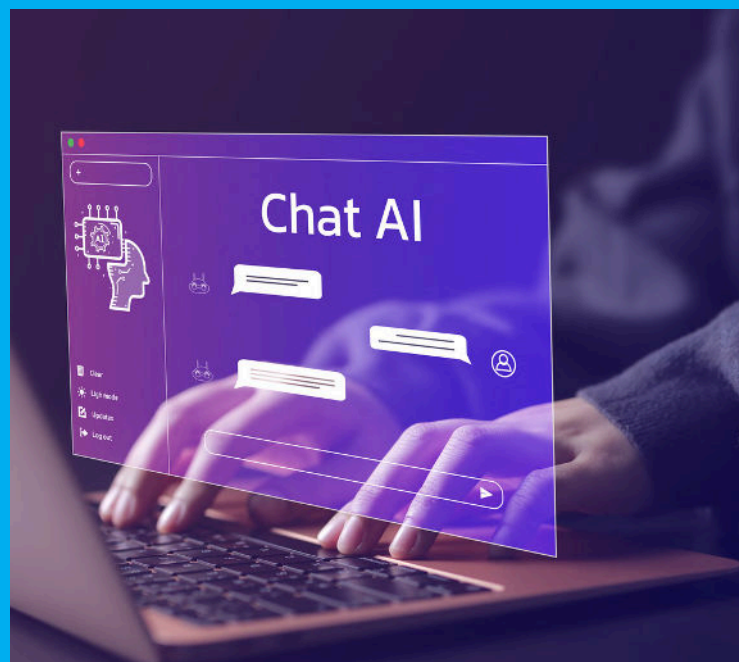

- A vote can be organised to elect the best work and a winning team.
- Option to subscribe to our Awards Ceremony with Gifts offer.
- As part of Harmonie Créative, think about re-using the song or jingle you've created: at team meetings, events or as telephone music on hold, for example!

# Your employees create shared memories!

It's a great way to familiarise your staff with AI in a fun and collaborative way!

- A collective, creative and original project that strengthens bonds and improves internal communication and the feeling of belonging.
- A final product that can be reused and that evokes the shared team building experience.
- An enriching and educational experience, where each participant can learn new skills while contributing to a common project.

# OUR CUSTOMERS

Romain

I'd like to thank Teams Connect for their responsiveness. On the day of the event, everything went very smoothly and this greatly contributed to achieving the objective of cohesion and integration of the new manager. And above and beyond this objective, all my colleagues, without exception, had an excellent time and came away delighted with the day. The hardest part will be to do even better next year!
